

## Video and Sound - Mrs. Galownia

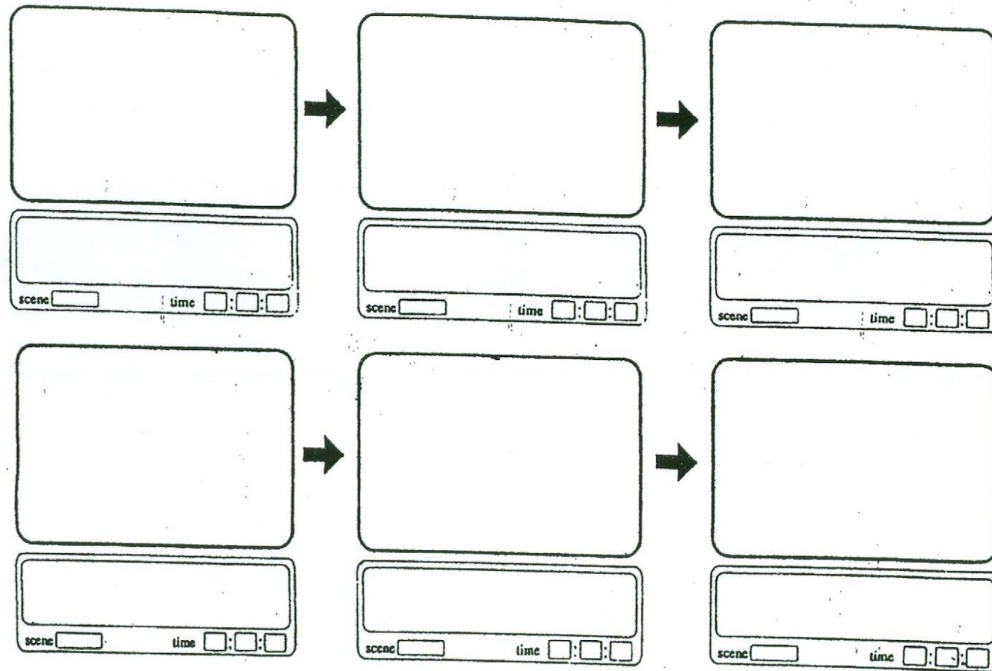

### Day 3

After watching videos from the schooltube website -- <http://www.schooltube.com/> -- create a storyboard for a video you would like to post on schooltube. You must use at least 12 scenes.

Storyboards

The storyboard template consists of two rows of three empty rectangular boxes each. Each box is intended for a scene and includes a 'scene' label with a small input field and a 'time' label with three small input fields for minutes, seconds, and tenths. The boxes are connected by arrows pointing from left to right, indicating the sequence of scenes. The top row is connected to the bottom row by a horizontal line.

# Storyboards

Enjoy the day!
